

# HOME FIRE ESCAPE PLAN

1. First, create a map of your house. Draw the rooms, doors, and windows.
2. Visit each room and find two ways to get outside.
3. Check that all windows and doors open easily for a safe escape.
4. It's important to have smoke alarms in your home. Press the test button to make sure they work properly.
5. Choose a meeting spot outside, like in front of your house, where everyone will gather during an emergency.
6. Make sure your house number can be seen from the street.
7. Talk to everyone in your home about the emergency plan.
8. Teach them how to call 911 or your local emergency number.
9. Finally, it's time to practice! Have a home fire drill to practice what to do in case of a fire.

**STAY SAFE!**
