

- MAKE a home escape plan. Draw a map of your home showing all doors and windows. Discuss the plan with everyone in your home.
- NOW at least two ways out of every room, if possible. Make sure all doors and windows leading outside open easily.
-))) HAVE an outside meeting place (like a tree, light pole or mailbox) a safe distance from the home where everyone should meet.
- >>> PRACTICE your home fire drill at night and during the day with everyone in your home, twice a year.
- PRACTICE using different ways out.
- >>> TEACH children how to escape on their own in case you can't help them.
-))) CLOSE doors behind you as you leave.

IF THE ALARM SOUNDS...

- If the smoke alarm sounds, GET OUT AND STAY OUT. Never go back inside for people or pets.
- If you have to escape through smoke, GET LOW AND GO under the smoke to your way out.
-))) CALL the fire department from outside your home.

FACTS

- A closed door may slow the spread of smoke, heat, and fire. Install smoke alarms inside every sleeping room and outside each separate sleeping area. Install alarms on every level of the home. Smoke alarms should be interconnected. When one smoke alarm sounds, they all sound.
- According to an NFPA survey, only **one of every three**American households have actually developed and practiced a home fire escape plan.
- (!) While **71%** of Americans have an escape plan in case of a fire, only **47%** of those have practiced it.
- ① One-third of American households who made an estimate thought they would have at least 6 minutes before a fire in their home would become life-threatening. The time available is often less. And only 8% said their first thought on hearing a smoke alarm would be to get out!

- Draw a floor plan or a map of your home. Show all doors and windows.
- Mark **two ways out** of each room.
- Mark all of the **smoke alarms** with SA. Smoke alarms should be in each sleeping room, outside each sleeping area, and on every level of the home.
- Pick a family **meeting place** outside where everyone can meet.
- Remember, practice your plan at least twice a year!

Grown-ups: Children don't always wake up when the smoke alarm sounds. Know what your child will do before a fire occurs. Get more information on smoke alarms and escape planning at **www.nfpa.org/factsheets**.
