PET FIRE SAFETY

Here are some simple ways you can prevent your pet from being hurt by fire!

Always remember to keep your pet away from open flames. If your pet is full of energy, it's better to stay away from candles!

Make a special plan for emergencies! Choose a safe spot to take your pet after a house fire!

Keep your pet safe! Make sure they have an ID tag or microchip in case you get separated during a fire.

Make your home safe for pets! Keep dangerous things like flammables and electric wires out of their reach!

Keep your home safe from fires! Check that smoke alarms work properly and teach your family about fire safety!

Be careful with pets in the kitchen! Make sure they don't touch the stovetop and always keep an eye on them!

Make your home safe for you and your pets! Ask an adult about adding fire sprinklers to your home!

STAY SAFE!
